## STEEL

Mahindra Ugine Steel Co. Ltd. (MUSCO) located at Khopoli, near Mumbai is a premier manufacturer of alloy steel and specialty steels in India. Started in 1962, having a current installed capacity of 240000 MT including recent addition of 120000MT.

The company is engaged in the manufacturing of alloy and special steel long products (bars & billets) through 50 ton Electric Arc Furnace (EAF) route. The steel division was first among all steel manufacturers in the country to get ISO certification and was further certified for ISO/TS 16949 in 2005. We are in the process of getting ISO 14001 approvals.

MUSCO caters to the Automotive, Engineering, Bearings and other Capital goods industries. MUSCO Steel is a single source supplier to numerous multinationals and domestic customers in India as well as to government organizations in the fields of Power Generation, Railways and Defence.

### Manufacturing Facilities

- State-of-the-art EBT Electric Arc Furnace
- Continuous mill
- 1200 MT open die Forging press
- Various furnaces for different types of Heat Treatment
- Bar peeling and rough turning facility

### Quality Enablers

- ISO/TS - 16949 certified
- ERP-SAP driven information system
- In-house Metallurgical, Chemical and Mechanical testing facility

### Product Profile

Form	Type
<ul style="list-style-type: none"> <li>• As cast / As forged / As rolled</li> <li>• Annealed / Spherodised Annealed</li> <li>• Solution Treated / Solution Treated and Aged</li> <li>• Softened / Hardened (Quenched) and Tempered</li> <li>• Peeled / Rough Turned</li> </ul>	<ul style="list-style-type: none"> <li>• Engineering / Forging Steel</li> <li>• Ball Bearing Steel</li> <li>• Die &amp; Tool Steel</li> <li>• Microalloy Steel</li> <li>• Case Carburising Steel</li> </ul>

### Size Range

- Bottom poured Ingots (3MT-13MT)
- Concast Blooms (250 x 200mm)
- Rolled Rounds (40-160mm dia.)
- Forged Products (Round 140 to 400mm, Squares 140 to 355mm)
- Bright Bars (40-300mm dia.)
